

ABOUT US

Domaine de Piéblanc was created in 2014 by Matthieu PONSON who became a **winemaker as a result of passion**.

The vineyard is situated on the Northern hills of **Caromb** at the foot of the Mont Ventoux in the midst of preserved nature. Only pines, oaks and olive trees are surrounded our 10 hectares of AOC Ventoux vines at 300m altitude. A few kilometers away, still in altitude at **Suzette**, 15 hectares of AOC Beaumes de Venise vines and 6 additional hectares of AOC **Gigondas** vines – located on the eminent land of wine at the foot of this well-known village and the Dentelles de Montmirail – come and complement Domaine de Piéblanc's vineyard.

The winery produces singular wines from this beautiful region showing off the different local **grape varieties**: mainly **Grenache** and **Syrah** but also **Cinsault** and **Carignan** for red and rosé wines; **Viognier**, **Roussanne** and white **Grenache** for white wines, all planted on different terroirs in order to bring complexity to wine. •

Matthieu Ponson believe in the respect of nature and environment. That's why he has early converted his whole vineyard to organic production.

After three years-old of long and consciencous work the 2020 vintage become the first vintage certified organic.

WINES

AOC Ventoux

- La Tuilière
- La Barre
- Rosé de Piéblanc

AOC Beaumes de Venise

- Les Hauts
- Serre de Supion

AOC Gigondas
